April 2016

**Presented by:**

Sustainability Action Research Housing Team

**Stakeholder:** Emma Sorrell

**Leaders:** Jessie Chen and Mochi Li

**Members:** Bryce Lee, Chris Hunter, and Pamela Lim

*The Housing Team is the first Sustainability Action Research Team to focus on non-food procurement at UCLA. Our goal seeks to increase and streamline procurement of environmentally preferred products, specifically office supplies, within UCLA Housing and Hospitality Services. We hope our guidelines will reach UCLA as a whole. Our project empowers individuals to take an active role in overcoming obstacles on UCLA's road to sustainability and to meeting the UC-wide goal of Zero Waste by 2020. By doing so, we hope to mainstream sustainable purchasing, enhance awareness of the existing sustainability policies, and bringing UCLA one step closer to sustainability.*

This catalog is published by the Sustainability Action Research Housing Team. For questions regarding information presented in this catalog, please contact Emma Sorrell, Sustainability Manager, UCLA Housing & Hospitality Services at [esorrell@ha.ucla.edu](mailto:esorrell@ha.ucla.edu) or our team leader, Jessie Chen at [jessiechensaid@aim.com](mailto:jessiechensaid@aim.com)

# Easy Ways to Practice Sustainable Living

## Green Procurement Tips

1. Look for these characteristics that lower a product's carbon footprint:
  - a. Reusable or refillable items (non-disposable)
  - b. Made of recycled content, especially postconsumer recycled content
  - c. Minimally packaged
2. Choose non-toxic or eco-friendly products, especially when ordering chemicals.
3. Purchase in bulk to further reduce packaging.
4. Consolidate ordering to cut down on the number of deliveries.
5. Look for the "reduce, reuse, recycle" symbol in the BruinBuy catalog.
6. Choose products that have certifications such as:
  - a. Environmental Protection Agency Comprehensive Procurement Guidelines
  - b. Forest Stewardship Council
  - c. Green Seal

## Other Ways to Be Green at the Office

1. Turn off power strips or unplug unused electronics.
2. Sort your waste into recyclables and compostables.
3. Turn on energy-saving settings on your electronics.
4. Print double-sided whenever possible.
5. Make your own scrap paper and notepads (for example: reuse one-sided prints).
6. Bring your own reusable mugs, plates, utensils, etc. (ex: to use at catered events).
7. Carpool, use public transit, bike, or walk to get to work.
8. Take the stairs instead of the elevator.
9. Set the thermostat to 78° in the summer and 68° in the winter.
10. Use digital file sharing instead of printing and mailing documents.
11. Take shorter showers or 5-minute showers.
12. Do laundry with cold water and full loads.
13. Reduce meat and dairy consumption.
14. Reduce food waste.
15. Plant herbs, produce, or drought-tolerant plants.
16. Open your windows or use a fan instead of the air conditioner.
17. Bring your own take-out containers for restaurant leftovers.
18. Invest in reusable goods. For example:
  - a. Cloth napkins
  - b. Hand towels
  - c. Grocery bags
  - d. Water bottles

## TABLE OF CONTENTS

---

<b>1. Writing Instruments</b>	<b>1</b>
Stick Ballpoint Pens	
Retractable Ballpoint Pens & Refills	
Dry-Erase Markers & Refills	
Highlighters	
Permanent Markers	
Mechanical Pencils & Lead, Eraser Refills

# UCLA

## Sustainability Action Research

**Sustainability Action Research (SAR) is a student-initiated, student-designed, and student-facilitated program offered through the Institute of the Environment & Sustainability (IoES). The program is twofold: In the fall, students are invited to attend the Sustainability Talks, where they will hear from professionals, academics, and activists in sustainable fields. In the winter/spring, students participate in the Sustainability Action Research Teams where they are partnered with a stakeholder to research, rethink, investigate, and tackle UCLA's greatest sustainability issues.**

**This program was formerly known as the Education for Sustainable Living Program (ESLP) which included the Action Research Teams. It was renamed in Spring 2016 to better reflect the purpose and goals of the program.**

Funding for SAR is generously provided by the Dart Foundation and ASUCLA's TGIF fund.
