September 16, 2016

TO: Commissioners and Interested Parties

FROM: Jack Ainsworth, Acting Executive Director
      Linda Locklin, Coastal Access Program Manager
      Kelly Cuffe, Statewide Land Use Planner

For Commission review and comment at the October 5, 2016 Commission hearing; No action is required by the Commission.

Background: In 2009 the Statewide Coastal Access Program staff prepared the first detailed analysis and report of vertical accessways acquired through Coastal Commission permit actions. The report covered San Diego and Orange Counties and was presented to the Commission in December 2009. In 2011, the report was expanded to add analysis of vertical accessways located in Los Angeles, Ventura, Santa Barbara, and San Luis Obispo Counties and was presented to the Commission in January 2012.

This 2016 report completes the analysis statewide. As summarized in the chart below, a total of 196 vertical accessways have been acquired through Commission permit actions. Of these, 61% (120 sites) have been opened to the public.

INTRODUCTION

The California Coastal Act of 1976 and the Coastal Commission’s Public Access Program

One of the highest priorities in the California Coastal Act of 1976 is the mandate to maximize public access to the coast. Provisions in Chapter 3 of the Coastal Act (Sections 30210-30214) set forth requirements for the provision of public access which must be met in order for the Commission to approve a proposed development project or a Local Coastal Program (LCP), including:

• Development shall not interfere with the public’s right of access to the sea where acquired through use or legislative authorization;

• Public access from the nearest public roadway to the shoreline and along the coast shall be provided in new development projects;

• Public facilities shall be distributed throughout an area to prevent overcrowding or overuse.

Section 30001.5(c) of the Coastal Act also declares that one of the basic goals of the State for the coastal zone is to:

Maximize public access to and along the coast and maximize public recreational opportunities in the coastal zone consistent with sound resource conservation principles and constitutionally protected rights of private property owners.

Getting to the Coast - The Importance of Vertical Accessways

A vertical accessway generally provides access from the nearest public road to the shoreline. When improved and opened, vertical accessways are extremely important because they provide a new way for the public to get to the coast, which is especially valuable in areas with limited or inadequate access. For this reason, the Coastal Commission has prioritized the opening of all vertical accessways acquired through its regulatory process.

How Public Access is Acquired in the Regulatory Framework

One of the main regulatory tools that the Coastal Commission has used to offset the impacts of private development on public access to and along the shoreline, is the requirement for permit applicants to record a legal document that protects or provides for public access across their property.

Generally, the Commission has used either an Offer to Dedicate (OTD) a public access easement or a Deed Restriction (DR) to protect these future public accessways to the coast.

What is an Offer to Dedicate a Public Access Easement?

An Offer to Dedicate (OTD) is a legal document that offers an easement across private land for a future public accessway. In order to effectuate the OTD and open the accessway or stairway for public use, it must be accepted for management by a responsible agency and then improved and opened.

What is a Deed Restriction for Public Access?

A Deed Restriction (DR) is a legal document that places responsibilities upon the landowner to protect public use within a specifically defined area of the property, in order to allow for a public accessway.

Introduction

Types of Vertical Access

- Public Road
- Vertical Access to Shoreline
- Vertical Access to Viewpoint

Examples:

- Stairway to Carmel Beach, City of Carmel.
- Bluff top path leads to stairway at Lands End, Pacifica.
- Path and steps to Carmel River State Beach.
- Scenic viewpoint overlooking Mendocino Bay.
Statewide: Since 1973, the Commission has acquired approximately 195 vertical accessways in connection with new development, which account for about 12% of all access sites acquired through Commission actions (lateral beach access dedications and inland trails, not included in this report, account for the other 88% of accessways acquired through Commission actions). Of the 195 vertical accessways required, 61% have been opened for public use.

Del Norte to Monterey County: This report is the first detailed analysis of all vertical accessways that have been acquired through Coastal Commission actions, from 1973 through 2015, in Northern California (from Del Norte County south through Monterey County).

This report identifies the location and background information for each vertical accessway acquired through Commission actions, and whether it is open for public use or not yet open. For those that are not yet available for public use, staff is taking steps to ensure they are opened as soon as possible.

San Luis Obispo to San Diego County: Vertical accessways acquired through Commission actions for counties south of Monterey were documented in a December 2011 report titled “Status of Vertical Accessways Acquired by California Coastal Commission Actions 1973 to 2011 - San Diego, Orange, Los Angeles, Santa Barbara, Ventura and San Luis Obispo Counties.”

Both the new Northern California Vertical Accessways and the 2011 Southern California Vertical Accessways report are available on the Commission’s website. www.coastal.ca.gov.

Introduction
Coastal Access Guide Publications Produced by the California Coastal Commission

Each chapter is also introduced using photos from the Coastal Commission’s regional guide books series, titled “Experience the California Coast,” including “Beaches and Parks in Northern California” (which includes Del Norte, Humboldt, Mendocino, Sonoma and Marin counties), published in 2005, and “Beaches and Parks from San Francisco to Monterey” (which includes Marin, San Francisco, San Mateo, Santa Cruz, and Monterey counties), published in 2012.
While the guidebooks identify all coastal accessways available to the public, this report on Northern California vertical accessways (similar to the report for Southern California vertical accessways) focuses specifically on vertical accessways that have been acquired as a result of Coastal Commission actions taken on coastal development permit applications.

For example, page 18 of the statewide *California Coastal Access Guide* identifies a beach path adjacent to the Oceanfront Lodge in Crescent City. However, what the guide does not explain is that this pathway was acquired and built pursuant to conditions of two coastal development permits approved by the Coastal Commission.

**DN #4 - Beach Accessway. 200 A Street, Crescent City. Easement granted 2012. Permit # A-1-CRC-08-004 for 44-unit condominium complex and retail offices.**

**DN #5 - Beach Accessway. 100 A Street, Crescent City. Easement granted 2002. Permit # A-1-CRC-00-033 for 94-room hotel and restaurant.**
How to Read the Graphics:
Maps and photos are used throughout this report to show the location and elements of each access site, as well as its status - green symbols and lines for open and available, red symbols and lines for those not yet available:

- Numbered symbols (eg., HUM #6) = County site number; (black arrows point to approximate location).
- Dotted yellow line = approximate property boundary for the coastal development permit (CDP) application site.
- Solid green or red colored arrows depict approximate location of vertical accessway (green = open, red = not yet open).
- Solid colored lines = approximate trail alignments.
- “VP” = scenic view points.

All line-work depicting accessways, trails, and parcels are approximate and illustrative only.

Photo captions identify details about the accessway, including: site number, the type of public access acquired as a result of a Commission action, the legal document type (OTD = Offer to Dedicate; DR = Deed Restriction, or Permit Condition) and recordation date, permit number, and a brief CDP project description.

For example: HUM #6 - Future Bay Access. 2433 2nd Street, Eureka. OTD recorded 1977. Permit # NCR-77-C-109 for a commercial warehouse. And HUM #7 - Boat Ramp and Public Trail. 2525 Fourth Street, Eureka. OTD recorded 2003. Permit # A-1-EUR-02-166 for commercial retail building.

Photos used in this document were obtained in-house, the California Coastal Records Project (© 2002-2015 Kenneth and Gabrielle Adelman - Adelmon@Adelman.com) and Google Earth® (Copyright Google) All locator maps are from the statewide California Coastal Access Guide, published by UC Press, 2014. Guide book page numbers (e.g., SWAG pg 40) are shown in parentheses on each map.
STATUS OF VERTICAL ACCESSWAYS IN NORTHERN CALIFORNIA

Del Norte County to Monterey County
In Del Norte County, 5 vertical accessways have been recorded pursuant to Coastal Commission actions since 1973. Of those 5 accessways, 2 (or 40%) have been constructed and opened for public use; and 3 (60%) remain yet to be opened.

Accessways that are open and available to the public are shown in green; accessways closed or not yet opened are shown in red. For other notes on how to read graphics, see pg 13 in the Introduction.
Location of Vertical Accessways Acquired by the California Coastal Commission in Del Norte County:

Smith River Area - 3 sites (closed)
Crescent City - 2 sites (open)

Del Norte County Map from the Commission’s statewide coastal access guide, California Coastal Access Guide (7th ed.) (pg 10). (Note: Maps used on the following pages to show the location of vertical accessways in Del Norte County are from this same statewide guide, and are thus marked SWAG with the page number on which the map can be found in the guidebook.)

Smith River Area Del Norte County

DN #1 through DN #3 - Regional depiction of access sites DN #1 through DN #3 in the Smith River area of Del Norte County.
DN #1 - *Future Beach Accessway*. 100-300 Harmer Beach Road, Smith River. Tract Map recorded 1990. Permit # 1-DNC-88-252 for 4-unit subdivision.
DN #2 - *Future Beach Accessway*. 12540 South Indian Road, Smith River. OTD recorded 1978. Permit # NCR-77-CC-66 for one SFD.
DN #4 and DN #5 - Regional depiction of access sites
DN #4 and DN #5 in Crescent City, Del Norte County.
DN #4 - Beach Accessway. 200 A Street, Crescent City. Easement granted 2012. Permit # A-1-CRC-08-004 for 44-unit condominium complex and retail offices.

DN #5 - Beach Accessway. 100 A Street, Crescent City. Easement granted 2002. Permit # A-1-CRC-00-033 for 94-room hotel and restaurant.
In Humboldt County, 7 vertical accessways have been recorded pursuant to Coastal Commission actions since 1973. Of those 7 accessways, 5 (or 71%) have been constructed and opened for public use; and 2 (29%) remain yet to be opened.

Accessways that are open and available to the public are shown in green; accessways closed or not yet opened are shown in red. For other notes on how to read graphics, see pg 13 in the Introduction.

Patrick’s Point State Park, Humboldt County.
Location of Vertical Accessways Acquired by the California Coastal Commission in Humboldt County:

Trinidad - 2 sites (open)

McKinleyville Area - 2 sites (1 open, 1 closed)

Samoa - 1 site (open)

City of Eureka - 2 sites (1 open, 1 closed)

Humboldt County Map from the Commission’s statewide coastal access guide, California Coastal Access Guide (7th ed.) (pg 28). (Note: Maps used on the following pages to show the location of vertical accessways in Humboldt County are from this same statewide guide, and are thus marked SWAG with the page number on which the map can be found in the guidebook.)
HUM #1 - Path to Beach. 840 Stagecoach Road, Trinidad area. Direct Dedication recorded 2007. Permit # 1-05-21 for 4 parcel subdivision.

HUM #2 - Trailhead to Beach Access Trail. 475 Wagner Street, City of Trinidad. OTD recorded 1981. Permit # NCR-79-CC-1033 for 1 SFD.
HUM #3 and HUM #4 - Regional depiction of access sites HUM #3 and HUM #4 in the McKinleyville area of Humboldt County.
HUM #3 - *Future Viewpoint*. Letz Road, McKinleyville. OTD recorded 1984. Permit # NCR-77-C-131 for 8-unit subdivision.
HUM #4 - Oblique aerial view of HUM #3 Blufftop Viewpoint along the Hammond Trail.
HUM #5 through HUM #7 - Regional depiction of access sites HUM #5 in Samoa and HUM #6 and HUM #7 in City of Eureka, Humboldt County.
HUM #5 - Beach Parking and Access. 97 Bay Steet, Samoa. OTD recorded 1979. Permit # NCR-79-CC-33 for addition to existing lumber mill.

HUM #7 - Boat Ramp and Public Trail. 2525 4th Street, Eureka. OTD recorded 2003. Permit # A-1-EUR-02-166 for commercial retail building.
In Mendocino County, 28 vertical accessways have been recorded pursuant to Coastal Commission actions since 1973. Of those 28 accessways, 13 (or 46%) have been constructed and opened for public use; and 15 (54%) remain yet to be opened.

Accessways that are open and available to the public are shown in green; accessways closed or not yet opened are shown in red. For other notes on how to read graphics, see pg 13 in the Introduction.

Hearn Gulch, Mendocino County.
Location of Vertical Accessways Acquired by the California Coastal Commission in Mendocino County:

- Westport & Kibesillah Areas - 3 sites (2 open, 1 closed)
- Noyo Harbor & Fort Bragg Areas - 5 sites (3 open, 2 closed)
- Caspar & Russian Gulch Areas - 6 sites (1 open, 5 closed)
- Mendocino Area - 2 sites (1 open, 1 closed)
- Little River, Albion & Navarro River Areas - 6 sites (3 open, 3 closed)
- Elk & Gualala Areas - 6 sites (3 open, 3 closed)

Mendocino County Map from the Commission’s statewide coastal access guide, California Coastal Access Guide (7th ed.) (pg 54). (Note: Maps used on the following pages to show the location of vertical accessways in Mendocino County are from this same statewide guide, and are thus marked SWAG with the page number on which the map can be found in the guidebook.)
MEN #1 through MEN #3 - Regional depiction of access sites MEN #1 through MEN #3 in the Westport and Kibesillah area of Mendocino County.
MEN #1 - Beach Access Path, Beach Stairway, and Viewpoint.
Permit # A-1-MEN-93-54 for 6-unit subdivision.
MEN #2 - Lateral Coastal Trail and Future Viewpoint. 31502 Highway One, Kibesillah area. OTD recorded 2011. Permit # A-1-MEN-07-028 for 7-unit inn.
MEN #3 - *Future Beach Accessway*. 30230 Highway One, Seaside Creek Beach area. OTD recorded 1980. Permit # NCR-78-C-297 for 2-unit subdivision.
MEN #4 through MEN #8 - Regional depiction of access sites MEN #4 through MEN #8 in the Fort Bragg area of Mendocino County.

(SWAG pg 64)
MEN #4 - Harbor Viewpoint. 32410 North Harbor Drive, Fort Bragg. OTD recorded 1979. Permit # NCR-78-CC-279 for construction of bulkhead.
MEN #5 - Path to Beach Trail. Bay View Avenue, Fort Bragg. OTD recorded 1984. Permit # 1-81-148 for 2-unit subdivision and community college buildings.
MEN #6 - Future Path to Future Accessway and Viewpoints. 33250 Schoefer Lane, Fort Bragg. OTD recorded 1986. Permit # 1-86-015 for 2-unit subdivision.

MEN #7 - Future Accessway and Viewpoints. 33300-33590 Schoefer Lane, Fort Bragg. OTD recorded 1980. Permit # 80-CC-122 for 4-unit subdivision.

to Mendocino Coast Botanical Gardens
MEN #8 - Beach Access Stairway, Trail & Viewpoints. 17410 Ocean Drive, Fort Bragg. OTD recorded 1989. Permit # 1-89-028 for 5-unit subdivision.

Status of Vertical Accessways in Northern California
Acquired by Coastal Commission Actions 1973 - 2015

Big Sur South
Monterey County
More Information about the Commission’s Statewide Public Access Program

For Vertical Accessways in Southern California

Vertical accessways acquired through Commission actions for counties south of Monterey were documented in a December 2011 report titled “Status of Vertical Accessways Acquired by California Coastal Commission Actions 1973 to 2011 - San Diego, Orange, Los Angeles, Santa Barbara, Ventura and San Luis Obispo Counties.”

http://documents.coastal.ca.gov/reports/2012/1/Th5-1-2012.pdf

Both the 2016 Northern California Vertical Accessways and the 2011 Southern California Vertical Accessways report are available on the Commission’s website: www.coastal.ca.gov.

Statewide Public Access Program

The Coastal Commission’s Statewide Public Access Program staff is responsible for numerous programs that help carry out Coastal Act policies designed to maximize public access to and along the shoreline. These include:

- Public Access Easements (e.g., Offers to Dedicate, and Shoreline Access Easement Guides for Malibu and Capistrano Beach)
- Completing the California Coastal Trail
- Improving Disabled Access to Beaches (e.g., beach wheelchairs, boardwalks, and overlooks)
- Protecting Prescriptive Rights (to legally ensure historic use rights of access to and along the shoreline are protected)

For more information on the Coastal Commission’s Statewide Access Program, check out the Access page on the Commission’s website, at: http://www.coastal.ca.gov/access/accndx.html.

California Coastal Access Guidebooks

The Commission has published a statewide guide and four regional guides, all of which can be purchased from UC Press.

As described on the UC Press website: “The thoroughly revised and expanded seventh edition of the California Coastal Access Guide, [is] an essential travel handbook for both new and seasoned visitors exploring California’s majestic 1271-mile shoreline. With the most up-to-date maps and information, it is a useful guide for all beachgoers – hikers, campers, swimmers, divers, wheelchair users, joggers, boaters – detailing where to go, how to get there, and what facilities and type of environment to expect.” … Also contained in this handbook is extensive information on environmental issues, updated to account for changing ecological conditions and conservation strategies. Feature articles cover a broad range of topics, including natural history, marine and coastal wildlife, environmental issues, and sports and recreation.

For the regional, 4-volume “Experience the California Coast” series, go to: http://www.ucpress.edu/series.php?ser=ecc

As described on the UC Press website: “The regional “Experience the California Coast” guides are the authoritative resource for exploring California’s magnificent coastline. Each lavishly illustrated regional volume describes all publicly accessible beaches and accessways along with plants and wildlife to look for, points of geological and historical interest, and shoreline processes. Topographical maps show beach access routes, hiking trails, and major bicycle routes. Easy-to-use charts list key facilities and amenities for all sites.”

And Check out YourCoast online!

To view all these coastal access sites online - whether from your computer, laptop, or smartphone - go to the YourCoast site, at: http://www.coastal.ca.gov/YourCoast.
